EDUCATION

Brototype, Calicut, Kerala

2024 – Present

Full-Stack Web Development Program (MERN Stack)

- Focused on real-world, project-based learning using modern JavaScript frameworks.
- Built and deployed full-stack applications using React.js, Node.js, Express.js, and MongoDB.
- Developed authentication systems using JWT, Redux Toolkit, and persistent session management.
- Designed responsive UI components using Tailwind CSS and Bootstrap for optimized user experiences.
- Worked directly with clients to gather requirements, design solutions, and ensure user satisfaction.
- Integrated APIs, implemented server-side routing, and optimized performance for production deployment.
- Practiced hands-on implementation, debugging, and deployment of live projects.
- Strengthened understanding of scalable system design and backend API development.

EXPERIENCE

Freelance MERN Stack Developer

Remote | 2023 – Present

Delivered modern web solutions tailored to client needs, showcasing strong communication, negotiation, and design skills while translating business goals into effective technical outcomes.

PROJECTS

Authentication in Redux — [GitHub](#)

React, Redux Toolkit, Node.js, Express, MongoDB

Secure JWT-based authentication with user sessions and state management.

Chronix E-Commerce Website — [GitHub](#)

React, Node.js, Express, MongoDB

Full-featured e-commerce app with authentication, product APIs, and cart functionality.

LPA Converter — [LIVE DEMO](#)

API Fetch, Node.js, Express, CSS

To calculate the LPA salary with tax to get an Idea of Yearly Incomes.

Chat App — [GitHub](#)

Socket.io, Node.js, Express, React

Real-time chat application supporting multiple users and live message synchronization.

OLX React Clone — [GitHub](#)

TailwindCSS, React, HTML

Responsive marketplace clone featuring product listings and dynamic search capabilities.

Bloggs React Project — [GitHub](#)

TailwindCSS, React, Node.js, Express, MongoDB

Personal blog management app with CRUD operations and state persistence.

Quran.com Responsive Clone — [Live Demo](#)

Responsive replica of Quran.com using Bootstrap CSS with smooth mobile UI design.

User Management System — [GitHub](#)

Node.js, Express, MongoDB

Comprehensive CRUD system for user data with secure authentication.

Other Projects: [LIVE DEMOS](#)

[TypeScript Calculator](#) | [TicTacToe Game](#) | [Minimal Todo App](#) | [Zomato Clone](#) | [Abundancy Tuition Website](#)

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, Redux Toolkit, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, REST APIs

Database: MongoDB, PostgreSQL

Tools: Git, GitHub, NeoVim, kitty, Linux (Arch), Render, Netlify

Other: Responsive Design, Debugging, Deployment, State Management, Data Structures and Algorithms

ADDITIONAL INFORMATION

- High proficiency in English communication and technical collaboration.
- Acquired strong language proficiency through direct interaction with clients and customers during freelance work.
- Fast learner with deep curiosity for system design, UI optimization, and modern web standards.
- Passionate about writing clean, maintainable, and scalable code with a focus on performance.
